

The Complete Guide to SuperConnected Cities Connection Vouchers

Save up to £3,000 on the cost of a high speed internet connection with a government grant!

Under its “SuperConnected Cities” Connection Voucher scheme, the Government is handing out up to £3,000 per business towards the cost of a faster and better internet connection. If you’re in one of the selected cities and you’re running a small or medium-sized business (SME), a social enterprise or a charity - you qualify for funding.

What is the SuperConnected Cities Voucher scheme?

- A government funded initiative running in 23 “SuperConnected” cities in the UK
- £100 million fund for grants available
- Each city administers the scheme in their coverage area
- Connection vouchers available until March 2015
- Used to pay for one-off installation charges – this includes excess construction charges which may occur when installing a high-speed, resilient dedicated connection to your premises

Is your business eligible?

Your business must be:

- Based in one of the 23 SuperConnected cities
- SME/Charity/Social Enterprise with:
 - up to 249 employees
 - turnover not greater than €50m per annum
 - balance sheet of no more than €43m
 - less than €200,000 of State Aid during the last 3 years
- The connection is for your business premises
- The contract must be in place for a minimum of 6 months
- Landlords can also apply on behalf of tenant/tenants

Supercharge your business from just £29.95 a month

Supporting business growth through access to crucial high speed, business grade broadband and leased line services

The “SuperConnected” Cities

These cities are taking part in the scheme:

Aberdeen, Belfast, Birmingham, Brighton and Hove, Bristol, Cambridge, Cardiff, Coventry, Derby, Edinburgh, Leeds-Bradford, London, Londonderry, Manchester, Newcastle, Newport, Oxford, Perth, Portsmouth, Salford and York.

How to apply

Applying for connections vouchers is a simple & easy process.

If you're in one of the SuperConnected cities mentioned above, all you need to do is:

1. Check that you qualify (or contact us and we can do this)
2. Contact us about superfast connections, we'll provide you a quote
3. Submit our quote to your local City Council
4. The City Council will approve you
5. Get back in touch with us and we'll take it from there

Once your new superfast internet connection is up and running, your City Council will pay us the value of your connection voucher. All that's left is for you to settle any additional charges and handle the VAT as you normally would.

We have guided many businesses through the application process. We have the experience to keep this as easy and simple for you as possible.

Fund the cost of your move into the seamless world of superfast connectivity

Why should I upgrade to a faster connection?

A faster, higher-quality internet connection will dramatically change the way you work and improve productivity.

Having the best technology in place can also give you a head start over your competitors, which in turn will help your business grow.

With broadband that offers a reliable and consistent speed, you'll be able to:

- ***Do more in less time***
 - Transfer large files in minutes at the touch of a button
 - A faster response means you can offer a better service to your clients
- ***More meetings, less travel, less time***
 - Cut the cost of travelling by hosting video conferences and be confident that your internet connection won't suddenly slow down or drop out
- ***Improve customer service***
 - A quicker, more reliable internet connection results in you keeping in touch with your customers through email and social media swifter than ever before
- ***Move to the Cloud***
 - Bandwidth-hungry applications like Cloud computing will run as they were designed for; super-fast, seamless and interruption free
 - Future-proof your business with infrastructure that will keep up with the digital advance
- ***Relax, safe in the knowledge that we are always here***
 - Our 24-7-365 local support means you will *always* have peace of mind knowing help is just a phone call away

Supercharge your business from just £29.95 a month with fibre optic business broadband or give your organisation a dedicated internet leased line connection with speeds from 20Mbps to 1Gbit/s
